INSA INTERNATIONAL EXCELLENCE SCHOLARSHIP

The Foundation, with the generous support of its patron EGIS, is offering 14 excellence scholarships to international students entering an INSA, either on an international track, a double degree or a Master degree.

This programme aims to promote access to high-level engineering studies in one of the 7 INSA by supporting exceptional talent from diverse backgrounds.

ELIGIBILITY CRITERIA

- + Being a foreign student applying for a course offered by one of the 7 INSA
- + Have an excellent academic record
- + Be from one of the following countries: Brazil, Colombia, Vietnam, Romania and Côte d'Ivoire
- + Scholarships may also be awarded to students of other nationalities, depending on the quality of their application

HOW DO I APPLY?

Applications must be submitted on the recommendation of the INSA to which you are applying, using an application file available upon request from your INSA contact, including the following information in particular :

- + A summary of your academic background and your most recent transcripts
- + Your reasons for applying to the institute
- + Your career plans
- + A letter of recommendation from the INSA you are applying to

Selected students will be notified by the INSA Foundation within a maximum of one month after their application has been sent to their contact person. Scholarships will be paid to the students on their arrival in France in two instalments.

A PROGRAMME SUPPORTED BY EGIS

Egis is an international player in architecture, consultancy, construction engineering and mobility services, present in 100 countries.

« Egis is proud to support this programme of excellence to enable the most promising international talents to pursue their engineering studies at an INSA and to promote, beyond our borders, the INSA model of humanist engineering to transform the world of tomorrow »

Laurent GERMAIN,
CEO, EGIS Group

GROUPE INSA

- + 7 National Institutes of Sciences and Technology
- + A French leading Groupe of Graduate engineering Schools
- + 20.000 students including 5600 international students
- + An educational model committed to social challenges
